

ADITYA FARID RIYAN WIJAYA

FULLSTACK DEVELOPER

Denpasar, Bali | adityariyan367@gmail.com | portofarid.vercel.app | +62 8822 8163 162

SUMMARY

I'm a passionate web developer committed to building high-quality, responsive, and visually appealing websites that enhance user experience and drive business growth. With expertise in frontend and backend development, I craft seamless digital solutions that are both functional and engaging. I thrive on solving complex problems, optimizing performance, and continuously learning new technologies to deliver the best results.

TECHNICAL SKILLS

TypeScript	React	Next JS
PHP	Laravel	Tailwind
HTML	Node JS	CSS
C++	MySQL	

PROFESSIONAL EXPERIENCE

FullStack Developer, Jobseeker Company

September 2024 - Present

- Worked on building and maintaining full-stack web applications using JavaScript, React.js, and Laravel.
- Implemented and integrated RESTful APIs, handled data operations using MySQL.
- Contributed to frontend features with a focus on responsive UI, form validation, and user experience.
- Fixed bugs and resolved technical issues across frontend and backend, improving overall application stability.
- Used Git and GitHub for version control and collaborative development in team environments.
- Built and implemented custom features tailored to user and client requirements, improving functionality and user experience.
- Participated in sprint reviews, feature testing, and deployment processes to ensure smooth releases.

Designed and Implemented IoT Architecture (Prototype), Freelance

March 2020 - November 2021

- Designed and built miniature IoT system mockups to demonstrate concept functionality and device integration.
- Created prototypes using sensors and microcontrollers.
- Collaborated with clients to understand use cases and translated them into functional prototype designs.
- Conducted basic testing to ensure reliability and smooth operation of mockups for presentation and evaluation purposes.

Translator and Proofreader, Freelance

March 2020 - November 2021

- Translated a variety of technical and non-technical documents from English to Indonesian and from Indonesian to English with high accuracy.
- Proofread and edited documents to ensure clarity, proper grammar, and consistency across content.
- Delivered accurate translations within tight deadlines, preserving the intent and meaning of the original text.
- Worked closely with clients to refine translations and ensure the final output met their expectations.
